Equipment Selection Questionnaire**

RADAR

Check all that apply and make additional comments in space provided. This will help us determine the best choice of radar for your specific application.

- I am primarily concerned with short range operation of less than 6 miles
- Picking up small targets such as buoy markers is critical
- I need a radar that will perform well in fog and haze
- Long-range targets (beyond 12 miles) are important to me.
- I seldom operate during adverse weather conditions
- I prefer a dome style antenna
- I prefer an open style antenna
- I have limited space available for the display & therefore need a compact unit.
- I prefer a compact display size of 6 to 8 inches
- I prefer a larger display size of 10 to 15 inches.
- I prefer a combination radar & chart plotter on the same display screen.
- I want to see AIS targets on my radar screen.
- Having the radar picture “over-lay” on my chart plotter picture would be beneficial.
- Price is the most important factor in my decision regarding a radar.
- I have a specific price budget range for radar of \$_____ to \$_____
- I use my boat for recreational activities only.
- I am a commercial boater and depend on my equipment to make my living.
